

# 2026 Corporate Travel Survey

The latest corporate travel survey results present an overview of corporate travel patterns and findings, including the most frequented destinations, estimated travel frequencies and desired future routes and air carriers. This survey is a joint initiative by **Winnipeg Economic Development & Tourism** and **Winnipeg Airports Authority**.

The insights reflect the current and emerging needs of 145 businesses in the Winnipeg/Manitoba region, highlighting travel trends and potential growth opportunities for enhancing Winnipeg's connectivity.

## Geopolitics and travel to the U.S.

Recent tensions with the U.S. have decreased business travel there for many, but companies with a head office located anywhere outside of Canada said their travel to the U.S. remained about the same.

## Did you know?

Manitoba is home to 86 businesses with U.S. parent companies, most located in the Winnipeg area.

## Manitoba trade in 2025 with the U.S.

Imported more than \$22 billion (73% of MB imports) and exported almost \$13 billion (66% of Manitoba exports).
